Laboratory Safety Protocols and Hazardous Waste Management

DOCUMENT TITLE: Laboratory Safety Protocols and Hazardous Waste Management
DOCUMENT TYPE: general_handbook
EFFECTIVE DATE: Fall Semester 2025 | VERSION: 3.0

SECTION 1: MANDATORY PERSONAL PROTECTIVE EQUIPMENT (PPE)

1.1 All students, researchers, and instructors entering wet laboratories must wear ANSI-approved safety goggles, chemical-resistant lab coats, and closed-toe shoes.

1.2 Shorts, sandals, loose jewelry, and unconfined long hair are strictly prohibited in chemical and biological containment laboratories.

1.3 Emergency eyewash stations and safety showers must be inspected monthly. In case of chemical contact, flush affected areas for a minimum of 15 continuous minutes.

SECTION 2: HAZARDOUS CHEMICAL DISPOSAL

2.1 Chemical waste must never be poured down laboratory sinks or drains. Waste must be segregated into clearly labeled hazardous waste containers.

2.2 Chemical waste collection requests must be submitted to the Environmental Health & Safety (EHS) office when containers reach 80% capacity.
